- Registered with the Royal College of OT Specialist Section of Neurological Practitioners and Specialist Section of Independent Practitioners (Membership Number: N2045)

Qualifications and Experience

In 1994 Julia Roberts completed her training as an Occupational Therapist in Canterbury, Kent.

Julia **specialised in neuro-rehabilitation** early on in her career as an Occupational Therapist, which means she has extensive knowledge and experience dealing with a variety of presentations and diagnoses.

Julia also has a high level of expertise in **upper limb assessment, management and splinting**, in respect of both neurological and rheumatoid conditions.

Julia has a working knowledge of a wide variety of **outcome measures and extensive experience of SMART goal setting**

Julia continues to attend regular continued professional development events, such as courses and conferences. Information on courses attended and continued professional development can be provided upon request.

March 2011 – Present day

In March 2011 Julia and a partner set up Neurolink Occupational Therapy LLP and Julia worked as the clinical lead until April 2015, when she became the Clinical Director of Neurolink Occupational Therapy Ltd; a company providing specialist assessment and neuro-rehabilitation of adults after brain injury, spinal injury and other neurological diagnoses.

Neurolink Occupational Therapy Ltd also offers an **upper limb assessment, hand therapy, splinting and rehabilitation service** to clients with a wide variety of other diagnoses.

Feb 2008 – Sept 2011 Lewisham Community Healthcare NHS Trust

8a Clinical Lead Occupational Therapist for Adult Therapy and Intermediate Care Teams across the community in the borough of Lewisham.

Operating as a consultant for Intermediate Care, leading the Neuro team, developing the stroke pathway, providing multi-disciplinary and discipline specific training, line managing / supervising senior Occupational Therapists and rehabilitation assistants, with a clinical **caseload of primarily neurologically impaired client's**.

April 2001 – Jan 2008 Royal Hospital for Neuro-Disability – Transitional Living Unit

Band 7 Occupational Therapist for an inpatient **neuro-rehabilitation** unit

This role required Julia to assess and treat **complex stroke and traumatic brain injured** clients, on the final phase of their inpatient rehabilitation, in preparation for them returning to live in the community. This involved the completion of complex risk assessment, both as the treating OT and a member of a multi-disciplinary team. OT goals were set up and handed over to a team of rehabilitation assistants, so detailed documents were required outlining how to facilitate independence in activities of daily living; this type of documentation can be a useful tool when delegating work to support workers and carers, in order to monitor progress and goal attainment.

Julia also assessed client's posture and seating needs, advised on manual and powered wheelchair provision.

She was the Lead Occupational Therapist for one of the weekly neurological upper limb splint clinics, covering all hospital inpatients, with a wide variety of complex presentations

Jan 2000 – Mar 2001 Royal Free Hospital NHS Trust.

Band 6 – Band 7 Occupational Therapist

Inpatients: Acute medicine, surgery, rheumatology, renal, oncology and plastics; upper limb splinting, complex discharge planning, equipment provision and multi-disciplinary working.

Outpatients: Rheumatology, neurology and orthopaedic trauma for upper limb splinting, treatment and equipment provision. Also providing a rheumatology service to the Homeopathic Hospital.

May 1999 – Dec 1999 Travelling abroad

Mar 1998 - April 1999 Croydon Community Health Trust

Band 6 Occupational Therapist on a community based Primary Care and **Neuro-Rehabilitation Team**

Community centre and home based assessment, treatment & rehabilitation of individuals with a variety of physical and cognitive disabilities including **stroke, traumatic brain injuries, multiple sclerosis, motor neurone disease, muscular dystrophy and parkinson's disease**

Feb 1995 - Feb 1998 Stoke Mandeville Hospital NHS Trust

Band 5 – Band 6 Occupational Therapist

6 months cover on medical, surgical and elderly rehab wards (including **stroke**)
2 years and 5 months on National **Spinal Injuries Unit** rehabilitating clients of all ages.

Including **hand therapy, splinting**, community liaison & reintegration, assessment for major adaptations & equipment provision, wheelchair assessments, group work, computer technology/environmental controls, posture, seating & tissue viability, multi-disciplinary goal planning, carer training and complex discharge planning.

Sept 1994 - Feb 1995 Queen Mary's Hospital NHS Trust.

Band 5 Occupational Therapist

Elderly medical / rehabilitation ward; treating **neurological conditions**, orthopaedic, general medical and elderly frail.

OTHER EXPERIENCE

- Julia has also been a guest lecturer on the Psychology course at Goldsmiths University, New Cross, London.
- Speaker on a course at the Royal Free Hospital – 'Splinting the Rheumatoid hand'
- Provider of a training programme for junior OTs and other disciplines, covering a variety of topics e.g. cognitive rehabilitation, splinting the upper limb, writing SOAP notes, SMART goal setting
- Julia ran a journal club in her role as Clinical Lead OT at Lewisham Community Healthcare NHS Trust
